One Stop Solution for all SOLAR needs

Western India's Biggest Solar Distribution, Design & EPC Company*

About Our Company

Awards Winning Company

Solar Products Distributor

Solar Design & Technical Consultants

With 45+ years of expertise in the Plastic Industry, we diversified into Renewable Energy Business with specialization in Solar Products Distribution, EPC & Design in 2016.

In a short span of 6 years, we are now one of the Biggest & Fastest growing Solar Distribution , EPC & Design Companies in India.

Along with distribution of Solar Products like Solar Modules, Inverters, Switchgears, Wires and Cables, we have technical expertise in Solar Design & EPC.

With the below resources, we ought to be the best in whatever we do:

- Sound financials to carry big orders / projects
- Quick Delivery and Service
- Strong In-house technical team for overall support
- Offices at Vadodara, Anand & Halol
- Ready Stock for Sample & Replacement for High Responsive Service
- 20000 sqft warehouse in Halol, Gujarat
- Warehouse in Mumbai, Maharashtra

Awards and Recognition

Award for
Best Project of the Year
2022

Award for
Best Design Team
2022

Award for
Influential Leader of the Year
2022

Award for
Best Solar Distributor
2023

Award for
**Business Excellence
for Outstanding Leadership**
2023

Award for
Business Leader of the Year
2022

At photovoltaic Solar our Vision is to make individuals, communities and businesses harness this abundant energy by closely working with them and providing customized solutions/services for their varied energy needs thereby reducing the carbon footprint, hence making our country and world a better place to live in.

Vision - Photovoltaic Solar

What We Do?

As one of the largest Solar Distribution & EPC Companies, we are engaged in providing below Products and Services.

DISTRIBUTION

As of today, we are proud distributor of Trina Solar, Saatvik Green Energy, Growatt & Polycab. We have a gamut of around 1000+ customers pan India. We have delivered 350+ MW products by the end of FY 2023 and we plan to deliver up to 500+ MW by the end of FY 2024.

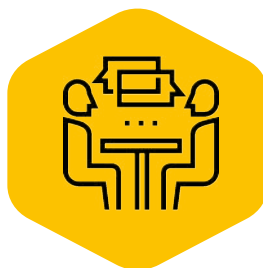

DESIGN

With one of the Strongest Technical & Design teams in the industry, we provide a complete Design Solution / Package right from residential projects to utility power plants.

EPC PROJECTS

We are one of the Top Companies engaged in providing end to end service in all kind of Solar Projects including Residential, Industrial (HT & LT), Hospitals, Commercial projects, Educational Institutes, Social Institutes, Government Buildings & Utility Power Plants.

CONSULTATION

We provide a comprehensive consulting solution to other companies based on our technical & commercial know-how.

Distribution

We are one of the Biggest and Fastest growing Solar Distribution Companies in India involved in distribution of Solar Modules, Inverter, Switchgear and other BOS of Solar Plant. Currently, we are proud to be authorized distributor of Trina Solar, Saatvik Green Energy, Growatt and Polycab.

Trina Solar

Trina Solar is the world's leading manufacturer of Solar PV Modules. It has scored 100% in 2022 BNEF Bankability Survey & have also won eighth consecutive "Top Performer" award certified by PVEL for its high-reliability modules. Trina has achieved a benchmark of 8 GW+ modules Sales in India and still going Strong.

Trina Solar Provides Monofacial and Bifacial Monocrystalline modules including N-type.

- High customer value
- High power
- High reliability
- High energy yield
- 12 years Warranty for Product
- 25/30 years warranty for Linear Power output
- Lower Temperature Coefficient & Operating Temperature

Growatt

Growatt is Global No.1 Residential Inverter Brand and among the World's Top 3 inverter brands. Growatt has shipped more than 40+ GW Inverters in 180+ countries till date. With more than 500+ Engineers working on R & D, Growatt has surpassed the technical superiority among all inverter brands. Growatt has more than 2.5 lakh inverters installed in India, which are in active state for more than 6 Years.

- Wide range from 1 KW to 253 KW
- World's No.1 Residential Inverter Supplier
- India's No. 1 Inverter with Highest Market Share
- Highest Efficiency among all inverter brands
- Dedicated Service Engineers across India
- Free Cloud Monitoring for Lifetime
- Low Start-up Voltage
- AC/DC Type-2 SPD Integrated*

Saatvik Green Energy

Saatvik Green Energy is one of the leading Indian solar module manufacturers with an annual production capacity of 1.5 GW at Ambala, Haryana. With its new upcoming manufacturing facility at Gandhidham, Gujarat the annual capacity will be more than 4GW by the end of the year 2023 creating valuable and remarkable benchmarks.

Saatvik Green Energy offers and produces high efficiency Poly, Mono-PERC and Bifacial modules with superior efficiency, higher performance and enhanced reliability.

Saatvik Green Energy Modules have/are:

- Higher Efficiency
- Multi busbar Technology
- 10/12 years Warranty for Product
- 25/30 years warranty for Linear Power output
- Backed by Munich RE Insurance*

Fox Ess

Fox ESS is Renewable energy subsidiary of Global Giant Tsingshan group which is listed in the global Fortune 500 company with sales revenue access of \$ 37.6 billion revenue.

It offers the most technologically advance inverter coupled with unrivalled performance and reliability. The company has an advanced R & D facility with over 30% of the employees involved in R & D.

- High efficiency and performance
- Built with world-class components
- Easily ungradable & future-ready
- Dedicated service engineer across India
- Free cloud monitoring for lifetime
- Unique heat management technology

PVS 360 Design

We provide 360 degree approach towards designing of Solar Plants from basic pre-design to entire layout with all pre-requisites as required by client or DISCOM /agency.

Here is the list of services we provide for Solar Design. You get entire Solar Design Solution from us.

- Realistic 3D Site Design
- Realistic 3D Video
- Detailed Structure Design
- Complete BOM
- Single Line Diagram
- Plant Layout
- Earthing Layout
- String Design
- DC/AC Cable Sizing
- Cable Trench Layout
- LT/HT Panel Design
- Shadow Analysis Report
- Structure Stability Certificate
- PVSOL/PVSYST Report
- Consultancy

What We Do?

"We Provide world-class Online Portal for Design Customers"

Best Design Team for Distributed Solar-2022

Why Choose PVS 360 Design?

We at Photovoltaic Solar ought to deliver the Best Services to our clients. Timely supply of Design with right technical input is our motto. Below are some highlights of what we deliver under our PVS 360 Design Package.

- Focus on Maximizing Energy Generation with minimum cost
- Complete Design Solution with support of Panel/Inverter Selection
- Quick Resolution on all Queries
- Dedicated & Experienced in-house Design Team
- Pre & Post Sales Support
- 100% Security & Transparency through dedicated **PVS 360 Portal**.
- Support in Power Plant Execution & Installation
- Guaranteed drawing approval
